Artech Consulting Group, Inc. is a technology services company specializing in database and Internet development and programming. Artech uses a unique project methodology, customized to meet our clients' organizational goals and increase effectiveness.

Artech has been certified as a participant in the U.S. Small Business Administration's (SBA) 8(a) BD program. Additionally, our firm has been certified as a Small Disadvantaged Business (SDB) in the Federal Government's SDB program. Incorporated in 1995, Headquarters in Sunrise, FL, Florida, 8(a) Certified (Graduation in 2011) Small Disadvantaged Business, Minority Owned Business.

Corporate Information:

We have extensive experience with leading-edge technology, business process improvement and reengineering, custom development tools and frameworks. Artech's goal is to bring sound methodologies together with technical expertise to deliver business solutions with high customer satisfaction. Each project is different and we work with our clients to employ the right approach to meet their particular needs.

A seasoned project manager who has an average of 10 years of work experience oversees every project. Project managers are required to give project status reports to the managing partner as well as the lead client representative on a weekly basis. These weekly meetings are used to discuss all open issues and to reach appropriate resolutions that meet the client's needs and expectations.

On projects that exceed one month in duration, a partner, who has an average of 15 years of work experience is assigned to reviewing the project on a monthly basis. This review usually takes 1 to 2 days of on-site work by the partner.

Capabilities

Overview of Capabilities

Artech is a project based Information Technology (IT) consulting firm that specializes in web-based solutions. We use tested methodologies and technologies to deliver solutions at a fixed cost and time with a focus on customer satisfaction.
